About

Located in downtown Banff, this second floor, one bedroom unit features an open plan living, dining, and kitchen area, with large windows for natural light and a clean, bright design throughout.

The modern kitchen has stylish cabinetry, ample counter space including kitchen island, and modern appliances. The bedroom offers large windows, a generous closet, and leads out to a large deck with views of Tunnel Mountain. Dedicated in-suite laundry adds convenience and the space is completed with a three piece bathroom, two large closets, and gear wall.

Building

Featuring titled underground heated parking with rough-in for EV charging, as well as secured bike parking. Residents have access to a community rooftop deck that includes barbeque, fire pit, harvest table, and a multipurpose heritage cabin. An elevator provides access to all levels of the building, and sustainability has been incorporated into the design with a rooftop solar array and LEED Silver building specifications. Up to two pets permitted per unit (upon condo association board approval).
